ARTIST: **The Abbasi Brothers**
TITLE: **Something Like Nostalgia**

ABOUT THE RELEASE

Something Like Nostalgia, the debut album by the Abbasi Brothers, is a film for your ears, a cinematic glimpse into the purity of everyday life. Written over 2 years time, these 15 scenes are like snapshots of daydreams, their soundscapes are their subtitles, and the origin is not so very foreign.

ABOUT THE ARTIST

Yousuf and Amman Abbasi represent a new generation of evocative and epic instrumentalists. Aged 26 and 19 respectively, they follow in the footsteps of the Eno/Byrne and Rodelius of the late 70's then waded through the enigma of early-80s 4AD, arriving in the 21st century with a sound that is familiar and yet all their own.

Intensely motivated by the moving image, **The Abbasi Brothers** have created a new lexicon of music using digital instruments, electronics, guitar, piano and found sound. Through dreamlike 'sound-scenes' that celebrate nostalgia and the gentleness of the mundane in our day-to-day living they manage to make the ordinary extraordinary. Juggling their time between Little Rock, Arkansas, and Dallas, Texas, they spend all of their free time crafting new works, either in film or music. While engulfed in their take on life-as-film made super-real is so rewarding one doesn't want the simple moments to ever end.
